cautiously on Feng-Wang-Cheng.

or has received a dispatch from General Kuropatkin, giving the report of Lieutenant General Zassalitch of the Russian the battle of Chlu-Lien-Cheng. The report states that Major General Kashtalinsky was injured in the head by a stone. The brunt of the fighting, Gen-Eleventh and Twelfth Rifle Regiments and the Twenty-second Regiment. The fighting | a boat arrived. was so desperate that the Russian regi-ments were obliged to make several counter-attacks, and to cut a way for themselves with the bayonet against the enemy, who was five times stronger than the Russians, and was supported by very numerous artillery.

In this fight, so terrible, but glorious for the Eleventh and Twelfth regiments, the losses in killed were four officers, including the commander of the Eleventh, and 481 noncommissioned officers and men. The rounded were one officer and 801 noncommissioned officers and men and a chaplain, while 700 others were left on the field. General Zassalitch confirms the reports of the enormous mortality among the artillery horses, and concludes his report

"Our losses on April 30 and May 1 altoor taken prisoners. Of this total 1,081 were whether they were killed or wounded. "In consequence of the heavy losses in men and battery horses and the difficulties encountered in the roadless country.

the guns and machine guns. "The Eleventh and Twelfth regiments, notwithstanding their heavy losses, were reformed in good order under the protection of the Third Rifle division, which did not participate in the fight, but was brought up to cover the retreat."

### Rail and Wire Cut.

WASHINGTON, May 8.-The Japanese legation has received the following official dispatch, dated Tokio, May 8:

"General Kuroki, commandant of the First Army Corps, reports that on May 6 our cavalry detachment dispersed the enthe enemy who have been hiding in the adjoining forests and villages continue to

come out and surrender. "Natives say that the number of Russians who were carried on litters through Feng-Wang-Cheng on May 2 amounted to 800. It is believed that the total casualties of the enemy exceeded 3,000. Our army which landed on Liao-Tung reports that detachment, after repulsing a small body of the enemy, occupied Pulan-Tien on May 6 and destroyed the railway and cut off telegraphic communications of Port Ar-

### MAKING HASTY EXIT FROM NIEU-CHWANG

NIEU-CHWANG, May 7, 9 p. m .- There is every indication that the Russians have decided to evacuate Nieu-Chwang. Troops have been leaving here all day long. Forts have been dismantled and all artillery has been placed on board trains. All the local transportation has been commandeered by the Russian authorities. There is current here a native rumor that Japanese troops are in Foo-Chanu bay (on the west side of the Liao-Tung peninsula, and about sixty miles north of Port Arthur), but this report lacks confirmation.

The fear is held here that if the Rus-

once take possession of Nieu-Chwang the gands, who are now across the River Yinkow, will pillage the place. The foreign residents are prepared to resist the brigands should they come over. The Britsh consul has requested that a gunboat The Russians probably will destroy the

gunboat Sivoutch before leaving. The ves-sel is at Nieu-Chwang. Japanese troops fired on what probably was the last train out of Port Arthur as it passed near Port Adams. They used artillery and smail arms, and killed or

wounded several Chinese. It is reported here that Viceroy Alexieff was slightly wounded prior to his departure from Port Arthur. He barely escaped from there before the Japanese closed the lines of communication.

The Russian general staff has removed from Liao-Yang to Mukden. Russians here will not talk of the situation for fear that they may impart some information. They do not consider that their forces here are sufficient to hold this section of the country. It is probable that the Russian troops will withdraw to Har-

The Russian civilians at Nieu-Chwang are leaving hurriedly, and many natives are fleeing the city in fear that they will be subjected to maltreatment at the hands of the brigands.

### CAVALRY SKIRMISHES PRECEDED CAPTURE

TOKIO, May 8, 12 m .- Last Friday, after sharp cavalry skirmishes at Erhtaitsu and other places, a detachment of infantry belonging to General Kuroki's army took Feng-Wang-Cheng. The Russians, before coring, exploded the magazines, but left large quantities of hospital stores, which are being used by the Japanese hospitals. Refugees from the woods and small vilages are constantly surrendering. The Russians buried many of their dead.

Natives in the vicinity of Feng-Wang-Cheng say that last Monday the Russians carried about eight hundred wounded through that place, and that their casualties probably were above three thousand. A detachment of the Japanese army operating on the Liao-Tung peninsula dispersed small bands of Russian troops on Friday and captured Pu-Lan-Tien, a railroad station. The Japanese destroyed the rallway and telegraph, thus severing the Russian communication with Port Arthur. The casualties in the last attempt of the mander Takayangi, commanding the and eight officers and thirty-six men were rescued uninjured. All the officers of the locking ships, including Commander Takaand granted annulties by the Emperor. General Kuroki, commanding the first Japanese army, increases the Russian casities in last Sunday's battle at Chiu-Tien-Cheng, on the Yalu river. The Japanese have buried about 1,400 Russians, and their own men, who were ascending th have 503 of the enemy's wounded in the slope. held hospitals. It is estimated that the total Russian casualties exceed 2,500. Over 300 Russian prisoners are en route to Mat-

### GRAND DUKE CYRIL HAS REACHED HOME

ST. PETERSBURG, May 8, 9 p. m .-Grand Duke Cyril, eldest son of Grand Duke Vladimir, and a cousin of the Emperor, has returned to St. Petersburg from the far East. He arrived unostentatiously, of Port Arthur, and they are eagerly awaitand only his family and a few friends were at the rallroad station to greet him. The grand duke looks much thinner that he did before he left for the scene of hostilities, but the burns he received at the to Harbin time of the disaster to the battleship Petropavlovsk off Port Arthur have healed, and thur before the line was cut arrived to Duke Cyril on his arrival was that he in-tended to return to the far East with the point.

Russian Baltic squadron, under command of Rear Admiral Rojestvensky. He will go sion, advancing by the valley of the Ai abroad soon on a flying visit to his in-river, occupied a position near Khuan-Di- amorata, the divorced wife of the grand duke of Hesse, who is a daughter of the late duke of Saxe-Coburg and Gotha. In an interview regarding his experience

at the time of the disaster to the Petropavlovsk, Grand Duke Cyril said: "I was standing on the bridge beside Vice Admiral Makaroff when I felt the shock of the explosion. My first impres-ST. PETERSBURG, May 8.-The Emper- | sion was that a twelve-inch shell had entered the powder magazine, and instinctively I leaped to the other side of the bridge. Vice Admiral Makaroff did not move. In the twinkling of an eye I climbed the rail and dove into the water. On coming up I saw Makaroff still at the same place, gripping the rail, his face streaming with blood. I was weighted with a heavy overcoat and could not keep afloat. I went down, but on rising caught the floating wreck of a boat. Two seamen recognized me, and helped to support me until

### BATTLE ACCOUNTS BY TWO INJURED OFFICERS

NEW YORK, May 8 .- Despite the strict censorship that is exercised at Liao-Yang. the Associated Press has been enabled to get out from that point the following, the first press dispatch giving the Russian side of the story of the battle of the Yalu: Liao-Yang, May 8.-The first lot of wounded from Chiu-Lien-Cheng arrived

here yesterday. They were on a sanitary train. General Kuropatkin was on the gether amounted to seventy superior and train. He distributed a number of medals subaltern officers and 2,327 killed, wounded for gallantry in action. Colonel Maister and Captain Piladelfoff, who were among left on the battlefield, but it is not known | the wounded, were interviewed by the Associated Press correspondent, to whom they made the following statement: "Without fear of the enemy's artillery,

on April 29 the Russians began to prepare it was absolutely impossible to bring away for battle. The Second Battery and the Sixth Brigade occupied the Chiu-Lien-Cheng position. On April 30 twelve of the enemy's three-inch guns appeared suddenly on an island opposite Chiu-Lien-Cheng, and then the battle began. The enemy shot bravely, their shrapnel bursting over our heads. In a few hours our battery was destroyed by the enemy, who opened with howitzers, which could not be seen, this tending to demoralize our men. Our ammunition was quickly exhausted and it was necessary in the middle of the battle to issue a new supply. All around shells were bursting and splinters were flying in every direction. Captain Shounkoff, under a heavy fire, rushed forward and closed the ammunition carriage, which otherwise might have been exploded by emy at Feng-Wang-Cheng, which was im- | the enemy's shells, and then returned to mediately occupied by our infantry detach- the battery. It was an awfully one-sided He visited many which were similar in ment. The enemy burned munitions before battle, and lasted all day. Our battery lost

> Captain Tickorjevsky, an artilleryman, Japanese went for us on all sides and we times as they attacked. Our losses were greatest when we were returning to each attack. The men fought like demons and only fell back at 5 p. m., when we had lost half our strength. The loss of the enemy is believed to be 4,000. They used humane

### FURTHER DETAILS OF YALU RIVER BATTLE

WIJU, May 1 (via overland courier to Seoul, May 8.)-The army under General Kuroki crossed the Yalu river to-day. The Japanese soldiers drove the Russians before them from strongly fortified mountain posts, which should have been held by small army against a greatly superior

The Russian forces are estimated officially to have numbered 10,000 men. They removed the batteries during the night, leaving the infantry to cover their retreat. The Japanese dislodged the Russians by a frontal attack delivered opposite Wiju. sians leave and the Japanese do not at This attack might have involved the Japanese in enormous losses, because they were obliged to advance across an almost shelterless sand plain, where their dark uniforms made the best possible kind of targets. The retreating Russians were flanked by two Japanese regiments, which captured

twenty-eight field guns, twenty officers and several hundred men. Japanese mountain batteries pursued the retreating Russians, but they were outstripped by the infantry, who made the captures among the hills, some miles beyond the river.

Two Russian regiments coming fro Hioko to reinforce their comrades wer badly cut to pieces. All the ammunition for the Russian arti lery and large quantities of supplies wer captured.

### ISOLATION OF PORT ARTHUR IS COMPLETI

SHAN-HAI-KWAN, May 8, 7:30 p. m. It is reported here that there has been s vere fighting at Feng-Wang-Cheng, which the Japanese were victorious. The took many prisoners.

The Russians are retreating toward Hai- SHOWERS, FOLLOWED Cheng (thirty-two miles east by north of Nieu-Chwang), and are evacuating the western side of the Liao-Tung peninsula. On Thursday and Saturday of last week the Japanese landed 10,000 men at Kinchau bay, 10,000 at Foo-Chau bay and 7,000 at Pitsewo. They -occupied the towns of Wa-Fung-Tien and Pu-Lan-Tien and destroyed several miles of the railroad Heavy firing has been heard in the direction of Kai-Chau, where Japanese troops

entrance of the Japanese. The refugees Sixteen Japanese warships protected the boat be sent to Nieu-Chwang, the Brit- ing a sweeping fire over the narrow isththis fighting were brought on the last train to arrive here.

Food is scarce at Mukden; the troops there are eating bean cakes. The Russians are preparing to evacuate Nieu-Chwang, and that city is in a turmoil of hurried

# Dalny Invested or Taken.

LONDON, May 9.-The Morning Post's Shanghai correspondent reports that Dalny was captured Friday, while the Tokio correspondent of the Daily Telegraph, cabling under date of Sunday, says: "Dainy was invested yesterday."

# JAPANESE ADVANCED

BY SUDDEN RUSHES

LONDON, May 9.- The Daily Mail's cor- Normal respondent at Nieu-Chwang, describing the occupation of Feng-Wang-Cheng, in a dispatch dated May 8, says:

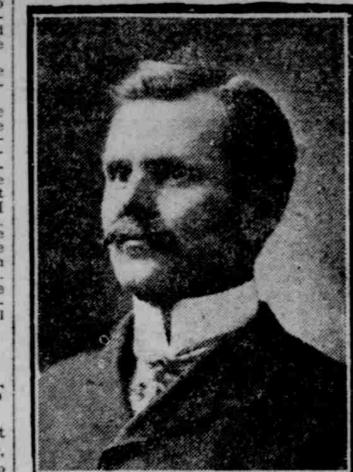

"The Russians did not respond to the opening of the Japanese fire, but remained silent and invisible. The Japanese line of infantry, two miles long and entirely Japanese fleet to block Port Arthur, which exposed, advanced from point to point by took place on May 3, are one officer, Com- swift, sudden rushes, smartly executed in the most brilliant style, firing steadily al steamer Yeddo Maru, and six men killed, the while. We watched anxiously, anticifour men seriously and five officers and pating that each rush would enter the zone sleven men slightly wounded. Fourteen of fire. The Japanese were working officers and seventy-four men are missing. around the sides of Chiu-Lien bay to their position, when the Russian trenches suddenly poured a hurricane of rifle fire into them, with deadly effect. For a moment yangi, who was killed, have been decorated the Japanese advance weakened and recoiled, then rallied. The Russians, not Every supplemental report received from having guns, were unable to reply to the continuous fire of the Japanese artillery. The Japanese advance was now marked by prostrate bodies. In one instance two Jap anese shells did terrible execution among

"Two hours after the advance began an officer suddenly appeared at the top of the slope waving a large Japanese flag, sending suyama, where they are expected to arrive an electric thrill through the beholders, a far and near shouting 'Banzai!' "

### PASSENGER TRAIN IS SCARRED BY BULLETS

# WAR HINTERLAND WEARS VERY PEACEFUL ASPECT

Correspondent Arrives at Mukden and Is Welcomed as a Harbinger of Battle.

BUSY SCENES OBSERVED

Soldiers Fraternize Freely with the Natives-All Advantages Save Access to News.

MUKDEN, May 8, 10 a. m .- The Assoclated Press correspondent finally received permission to proceed from Nieu-Chwang to Mukden by way of Liao-Yang. He was given a special car on the main line after leaving Nieu-Chwang and received official courtesies on the journey.

Observations from the car window were unique. The spectacle in many places of artillery parks amid the springing wheat, and Cossacks in multi-colored shirts lining the road, entirely changed the aspect of central Manchuria since the correspondent's departure from headquarters at Port Arthur more than two months ago.

Notwithstanding the extensive military occupation of and operations in the eastern region, the country here presents a singularly peaceful appearance. The farmers and the natives are apparently undisturbed and are profiting by the advance in the prices of products, especially in Liao-Yang and other large markets, where the most friendly attitude is displayed toward the military, who adapt themselves, as far as possible, to native ways and customs. The foreign guests of the Russian authorities in Manchuria note the businesslike conduct of the war and also the ab-

sence of excitement, and are surprised at the machinelike operation of the railway. The Russians apparently welcomed the correspondents as an evidence that there will be active campaigning soon, which was in signal contrast with the correspondent's observations at Port Arthur when the war opened, as the correspondents there were regarded as harbingers of evil, and as being undesirable on account Illinois street. of the war.

we, therefore, destroyed and abandoned The services of several instructors were rest of the equipment being of Russian them."

The services of several instructors were rest of the equipment being of Russian make. The railroad yards resemble those of a Western city in their bustling activity, and there are electric lights in the foreign settlement.

At Liao-Yang the attaches congregate at the railway station, which for the moment is the center of interest, and dine at brilliantly-lighted tables in the crowded dining rooms, discussing the meager news which may have eluded official vigilance, The correspondents are not in a dissimilar situation here, though they are subjected to the watchfulness of the authorities. News of the progress of the war in the regions to the west and the south and other information is exclusively reported in official dispatches, but on the correspondents' arrivel here yesterday Viceroy Alexieff extended to them an invitation to submit duly-censored dispatches for transmission to the Western press.

# MORE MARBLES AND LESS THEORY TO SAVE THE BOY

First Six Days Compared with The Rev. Mr. Blunt Has Solution Member of Royal Family Who for Question That Bothers the Childless.

> "Amusements" was the subject of a tral avenue. The subject from the very the public proved a very interesting one, will not be necessary when one meets him and the Rev. Mr. Blunt expressed his to tell how his last poem has been read

"Of late the question has been dealt with from the negative side. Great religious bodies have convened and taxed their intellect to discover some means by which children's play may be further restricted. 'Thou shalt not' has been the command of the church for ages past, and no wonder children have disliked its doctrine. "What I want to advocate is the posi tive side of the question. Play is natural,

play is one of God's greatest gifts. To deprive the child of it were a cruel sin. "One way which I have found extremely successful is to bring children into the company of manhood. Nothing they enjoy more and nothing does them more good. Let their fathers go out with them to the swimming hole. Let them go out to the fish pond with their children. Let them get out on the sidewalks and play marbles with them. There is nothing that develops a child as much as association with men. Let us do our part in promoting such as-

# BY ESCAPING GAS

NEW YORK, May 8 .- Edward A. Smith, chief clerk at the West Shore Railroad freight station, in Weehawken, was found dead in bed yesterday morning, having been asphyxiated by illuminating gas. By his death a young bride of three days became a widow. Before her marriage she was Miss Carrie Reed of 803 Malone street, West Hoboken.

The dead man was fifty-nine years old and occupied a furnished room with the family of Michael Mansfield, at 509 Humboldt street, Union Hill. Miss Reed and he were married last Tuesday evening.

### SHIPWRECKED SAILORS TAKEN TO NEW YORK

NEW YORK, May 8.-The Ward line steamer Santiago, which arrived to-day from Tampico, Havana and Nassau, brought Captain Shepard and seven seamen of the American schooner Arthur McArdle, which was wrecked on Egg islands, Bahamas, on April 23 and became a total loss. The crew stripped the wreck of all the available property possible and took to their boats, went to a village on a near-by island, whence they obtained passage on a small sailing craft for Nassau. The McArdle was bound from Philadelphia for Havana with a last night and slated at the police station cargo of petroleum.

ROY BREEDING. Youngest Barber in the City.

# ONLY THIRTEEN YEARS OLD, BUT IS A CAPABLE BARBER

Lad Working in His Father's Shop in This City Is Probably Youngest Barber in State.

WORK FOLLOWS STUDIES

Probably the youngest full-fledged barber in the State is Roy Breeding, thirteen years Saturdays, and during summer vacations, sixth of an ounce of gold, valued at about can be found darting the glistening steel of | \$3.50. a keen-edged razor up and down the strop preparatory to shaving one of his many regular customers.

This youthful knight of the striped pole is the son of J. S. Breeding, who operates three shops in the city. The lad works at one of the three—"The Urban," at 140 North He has been in the trade since some time perore his eleventh birthday, and at the

present time he is as good a workman as Of course, he is handlcapped to some extent by his size. A man with a tender face and a hard beard is afraid to take the apparent risk, but it is said that those who have tried it out of curiosity have never had occasion to regret it, and the shop has many customers who show a marked preference for the work of the "kid," even if he does wear short trousers and has to let the

chair down to its lowest notch. He is an exceptionally bright boy, and says that while he is in the business he proposes to be just as good a workman as s turned out from any place. One of the employes in his father's shop bears the name of "Frenchy," and in local barber circles "Frenchy" is spoken of as a "crack' barber. It is the ambition of Roy to be as good a barber as "Frenchy." When he is this, he says, he may think about entering some other business.

# PRINCE PU LUN'S POETRY IS WRITTEN IN CHINESE

Will Visit Indianapolis Is a Literary Star.

of this city for a week, beginning May 18, presented last evening by the Rev. Harry is a poet. All of the Chinese scholars are poets to some degree, but it is said that tional Church, Fourteenth street and Cen- the prince stands among the top ranks, and spring is here. However, he does not fact that it has not been brought before understand the English language, and it opinion that in a few years it would be with "so much pleasure." No doubt if one of the vital questions of the day. In the writings and success of James Whitcomb Riley were explained to him he would be very anxious to meet the Hoosier poet as a kindred spirit. In referring to the people he will meet, it perhaps might be well to remark that all of his greetings will not be of an informal character. There are certain forms that will be observed, and these will include some calls that the prince no doubt will make.

Sufficient time will be afforded him out of the already full programme to make those calls of ceremony which will be absolutely essential from his courteous point of view. The first of the calls that have been planned is one to the residence of Mr Wong, in Broadway. This will be the most informal of all, for, if carried out as planned, it will include a visit of half an hour, during which the Prince will be seated in the home of Mr. Wong, an honor that will be highly appreciated by his host. When a member of the royal blood thus seats himself in the home of a subject, no matter how high that subject may be in rank he is much more highly honored than would be the American if called upon in a similar manner by the President of

The other calls that it is expected the various residents of the city who have been most prominent in his reception. These will be rather of a formal nature, but may be considered a great honor. The prince will be driven to the door of these favored ones and from his carriage will send in his card. It is possible, however, that these calls will not be of so formal a nature as has been planned, for the prince is a genial person, according to all accounts, and in addition is a bit curious as to how Americans live, so it is possible that his genial nature and his search for knowledge will carry him beyond the portals of the doors. Although equally as curious as Li Hung Chang was when he visited this country, the prince, it is said. does not ask questions of as personal and

# embarrassing a nature.

Overlooked Valuable Jewelry. Though a great deal of valuable jewelry and silverware was in the house, within easy reach, burglars who entered the house of George Simonson, 2251 North Pennsylvania street, last night, went away seemingly satisfied with \$12 in money, which they secured. The burglary occurred while the family was away.

### Boys Charged with Petit Larceny. Ben Howard, 415 West Market street

and William Wood, 207 Minkner street, both seventeen years of age, were arrested on a charge of petit larceny. They are accused of stealing railroad iron. Arrested on Serious Charge.

# GOLD REDUCTION PLANT INSTALLED AT ST. LOUIS

Five-Stamp Mill to Handle Several Tons of Black Hills Ore Every Day.

THE PROCESS IN DETAIL

Every Phase from Crushing to Extracting Pure Gold from the Amalgam to Be Seen.

Special to the Indianapolis Journal. ST. LOUIS, May 8.-A real Black Hills gold reduction plant in actual operation is one of the novel sights that may be seen any day in the wonderful Mining Gulch at the world's fair.

This reduction plant is a model, but not a miniature. The building which contains it is 105 feet long, 35 feet wide and 45 feet high. In this structure sixty carloads of ore, some of it brought from levels in the Black Hills mines a thousand feet below the earth's serface, are crushed and the gold is extracted and made into real gold bricks before the eyes of the visitor.

This really "live" exhibit may destroy the romance that surrounds gold mining when viewed by one whose knowledge has been gained from books. In the Black Hills the gold is not found, in its pure state, in great chunks. A ton of rough-looking boulders, blasted hundreds of feet down in the ground, is hoisted to the surface, and after a long and exhaustive process a frac-tion of an ounce of gold is extracted from this great mass, and all else is waste. The great Homestake Mine, at Lead, which has paid dividends every month for twentyfive years, is one of these "low-grade propositions," as the miners term them. A old, who every evening after school, on ton of Homestake ore will yield about one-

> The world's fair gold reduction plant is what is known as a "five-stamp" mill, emcyanide process. The plant is to operate eight hours a day, crushing five to eight parts, so that the visitor may view and

understand every process. south end of the plant, near the Intramural station, resembles a great coffee mill Its iron jaws are ever hungry, and huge rocks are reduced to small stones in a trice. A piece of ore the size of a man's head is easily swallowed by the monster, but pieces larger than that are broken by a strong man stationed at the mouth of the crusher with a heavy sledge hammer. The ore in the crusher's capacious maw is broken into pieces the size of a hen's egg, and the crushed ore drops into a bin underneath.

UNDER THE STAMPS.

A wooden trough or box leads from this

crushed ore bin to the mortar, where the noisy and spectacular part of the process is begun. The ore drops from the trough the mortar. This is a rectangular iron box, five feet long, two feet wide and two and one-half feet deep. Working over this box is a series of trip-hammers. Miners call them "stamps." In this world's fair mill there are five of these stamps. Each is a huge piece of solid steel, weighing 1,000 pounds. They fall into the bottom of the mortar at the rate of ninety strikes per is placed on timbers fourteen feet long, standing on end, and resting on a heavy stone foundation set deep into the ground. This gives an elasticity that facilitates the work. The 1,000-pound hammers have a drop of but little more than six inches, but the constant operation soon reduces the chunks of ore to minute particles no larger than grains of corn meal.

twelve feet long and five feet wide, tilted so that the "pulp," as the sand is now termed, flows down over the plate with the water. The silver plate has been covered with a thin coating of quicksilver, which is in a liquid state, but the affinity the silver has for it holds it securely on the plate's surface. The tiny particles of gold in the pulp are attracted by the quicksilver and are held by it, the sand and water passing

to 45 per cent. of it is pure gold.
The imp SAVING THE GOLD. These balls are carefully kept and every two weeks they are sent to the retort. They

sealed. Coming out of the top of the vessel is a "goose neck." A fire of sufficient intensity is applied beneath to melt the balls. The quicksilver passes off through the goose neck in the form of gas and is condensed and used over again. Nothing is left in the vessel but pure gold, ready to be cast into bricks and sold to the United States government for \$20.67 This process is used when the ore con-

lective with all ores from the

gold fields. Some of the gold yet remains in the "pulp" that has passed over the silver plate, and, as is the case with other ores that are not at all free and must be treated entirely by the cyanide process, this is permitted to flow into a series of tanks containing a solution of cyanide of potassium. This dissolves the gold and holds it in the solution, and finally pours into a box filled with zinc shavings. The chemical action of the zinc on the cyanide precipitates the gold and it fastens on the zinc shavings. The now clear solution is drawn off, leaving the gold in the box with the zinc. The solution is reinforced with more cyanide, is pumped back up into the mortar, and begins its task all ever again The gold in the zinc shavings is treated similarly to the balls in the amalgam process, and once every two weeks is east into gold bricks. These bricks vary from the size of a match box up to double and sometimes treble the size of a building brick. One who watches this interesting process at the world's fair from beginning to end, and sees the small amount of gold that is secured, does not see how there can be any lime point and splendid presence of mind profit in gold mining. Yet the "low-grade | propositions" are the ones in which the most money is made. This exhibit is made to demonstrate that the Black Hills mines are conducted on business principles and are devoid of the gambling and speculative liating atmosphere from which there could features.

Emily Crawford Thinks Her Highness's Message to the Admiral's Widow Lacked Tact.

DUKES CYRIL AND BORIS

PARIS, April 26.-The telegram of the Grand Duchess Vladimir to Mme. Makaroff telling her "to prepare for terrible news," was kind, but one may doubt whether it was tactful. A thousand times better to have given the news just at once without the alarming preface. Preparation is only bracing silver amalgamation tables and the good when a face ought to be composed and a pose adopted. But if feelings merely are to be consulted, suddenness is best. tons of ore. The building is made with are to be consulted, suddenness is best, wide platforms around all of the working The thunderbolt effect so stuns that it brings an opiate with it. Heart pains and The great ore crusher, which is in the the aching sense of void come later. No moral torture could have been worse than that Mme. Makaroff must have experienced in the period of suspense between the telegram of the grand duchess and the shocking reality as conveyed to her by a servant who heard of the admiral's fate in the

The Grand Duchess Vladimir had three successive stepmothers, the last of whom increased a fairly numerous tamily by half a dozen children. Since her marriage, she may be said to have lived entirely on cakes, and as the grand duke's comrade has gone from pleasure to amusement and from amusement to pleasure. Such a life does not teach a naturally frank person how to play the consoler's part. In her long sojourns in Paris and at Biarritz, she went mostly into the ultra royalist society that Guinot brings on the state in "Decadance" and Octave Mirreau in "Les Affaires Sont les Affaires." She made a point of drawing the line in social relations with republicans at those holding high office, such as M. Deschanel fills, and a few hommes d'esprit whom she met at his table as the Petit Bourbon. I remember minute, one following the other in rapid her and the grand duke. "No women were rotation. The bottom of the mortar box invited," by agreement with her chamberlain. It is true that at the time M. Deschanel entertained the imperial couple he had not yet married Mme. Brice.

Her imperial highness is reputed to be stanch in her friendships and remarkable for her honest pride. She made it a condition in accepting the offer of marriage from the grand duke that she must not be asked to pass through the baptismal dipping tank to the hymeneal altat, and she this mortar, washing the sand through a must have been the first to have done so since the time of Peter the Great, who did not ask his Brunswick daughter-in-law to enter the Greek Church CYRIL'S MARRIAGE FORBIDDEN Cyril used to be a handsome child and

thoughtful-looking lad in the years in which she and his brothers and sister came to make long stays in Paris. He had a finely formed, set face, in the midship-The gold thus held by the silver plate is collected once every day. The machinery is him gives this peculiarity, but adds an air stopped, and a man with a brush and a of disappointment, which being crossed in pan cleans off the plate much in the love might account for. His engagement fashion by which a woman brushes the to the Grand Duchess Victoria Melita, crumbs from the dining room table. When divorced wife of the Grand Duke of Hessesevere accident I spoke of in a previous motoring excursion in the Thuringian Wald,

The imperial family saw in this proof that heaven had set its face against the marriage with a first cousin, on which Cyril seemed bent. As he stands next to the second heir presumptive to the imperial throne, his branch of the family was averse to his disobeying a wholesome rule of the Greek Church

His brother Boris, who is so late Queen Victoria at his present age, serves in the Hussars of the Guard at Por-Arthur. He must have died a thousand deaths as he watched the movements o the Petropavlovsk from a fort on the Golden mount and saw so well that he could identify his brother Cyril on the bridge. The two brothers felt their emulation stimulated by the war report of tains "free" gold, but it does not prove ef- lation stimulated by the war report of Arthur, in which he speaks of the coolness of the imperial princes of Japan under fire. Admiral Uhru, who commands a squadron of Togo's fleet, is of the imperial blood and an Annapolis boy. Why should not grand dukes set themselves in array against little Japanese princes? And so they both insisted on serving in posts of

THRILLING EXPERIENCE IN WATER. By the baptism of fire and water that Cyril underwent and his sensational experience packed into the short time between his immersion and his rescue, he stands alone in the history of dynastic families. If the element of heroism, which must have a touch at least of altruism. had had an opportunity to come out, he might take his stand on the platform of an American lecture room with the naval lieutenant who bottled up Cervera's fleet in a Cuban port. The will the set face indicated asserted itself almost to the subgave an almost epic grandeur to Cyril's struggle for self-preservation against the swirling maelstrom round the sinking monster, in fire terrible as any ever belched from a volcanic crater, and in the asphyxbe no escape, but in diving down to the deepest sea depths. And in doing that he incurred more than a risk of being flat-tened into pulp by the sinking exploded R. P. Akin, of the Colorado iron works, of prominent mining expert, are in personal ship. How I pity the novelist and playwrights who have to compete with such realities! EMILY CRAWFORD.

## FIGHTS LIKE TIGRESS IN HER PRISON CELL

While confined in their cell at the police station, charged with drunkenness, last night, Virginia Williams and Mady Jones, two Court-street negresses, fell to fighting, and the Williams woman, in her anger, bit her antagonist on the mouth and arm before they could be separated. When brought to the station the Williams woman showed a violent temper and acted ugly. It is not known which of the women started the trouble, which was in full blast, before the alarm was given. The injuries sustained by the Jones woman are very painful and required medical attention.

## TELLS HIS TROUBLES AND IS LOCKED UP

James Vanhook, 703 Illinois street, walked up to Patrolman Shaffer in the Union Station last night and presented a battered face for the officer's inspection, remarking: "Look what some fellow did to me, and KANSAS CITY, Mo., May 8.—Two trolley cars on the Independence line collided head-on at Sheffield, near here, to-day. Five persons, all negroes, were injured. One, an elderly woman, will die. The two dozen other passengers escaped with a devere shaking up.

MILWAUKEE, Wis., May 8.—President J. Ed Grillo, of the American Association Baseball League announced to-night that the game scheduled between Milwauth the assault took place at Washington and kee and Louisville for April 25 will be played Tuesday next in Milwaukee which is an open date,
